

Interdisciplinary Graduate Program in
Molecular & Cellular Biology

Thursday @ 4:00 PM April 1, 2010 1289 MERF

Workshops & Seminars – Spring 2010

“A Network of TGGGC-motifs and GC-boxes in the Human Cytomegalovirus Major Immediate-Early Enhancer Drives Viral Gene Expression and Replication”

Courtney Galle

(Meier Lab)

Molecular & Cellular Biology

Sopping Up The Competition: Long Non-Coding RNAs As Endogenous MicroRNA “Sponges”

Ryan Spengler

(Davidson Lab)

Molecular & Cellular Biology
